

Ghotit Frequently Asked Questions

How does Ghotit Real Writer & Reader 7 work?

Ghotit Real Writer & Reader 7 is an integrated writing and reading solution comprising several advanced assistive technologies tailor-made for people with dyslexia, dysgraphia and other learning disabilities. It helps children and adults with dyslexia and dysgraphia to read, write and correct English texts in any application.

Ghotit's patented technology provides the most appropriate corrections for spelling, grammar and punctuation mistakes according to the intended meaning of a text.

Ghotit Quick Spell Word-Prediction is a state-of-art technology designed for writers with typing issues and phonetic/creative writers; this technology increases writing speed and successfully predicts intended words with instant correction of the first misspelled letters.

Ghotit Reading technology makes any text document readable: hear text read aloud in conjunction with dual highlighting. And Ghotit Screenshot Reader reads even texts of images, locked PDF files and other inaccessible documents.

What does Ghotit Real Writer & Reader 7 include?

- Quick-Spell Word-Prediction with instant correction for creative/phonetic writers
- Context-sensitive and phonetic spell checker
- Corrector of confused words including homophones
- Grammar and punctuation corrector
- Integrated talking dictionary
- Proof-reader with dual highlighting
- Speak as you write (speech feedback)
- Text-to-Speech Reader with dual highlighting
- Screenshot Reader to read aloud any text on the screen
- Topics (Word-Banks) for Word-Prediction
- Integration with all text editing applications
- One-click experience with Floating Toolbar or F-key shortcuts
- Standalone "Dyslexia Text Editor"
- Google Docs "Dyslexia-Friendly Editor" for Windows/Mac
- User Interface Customization

Are the Ghotit Software and Apps appropriate for school and college?

Yes, indeed. Ghotit Software and Apps are helping children and adults to succeed in school, college and beyond.

Is the Ghotit Software appropriate for businesses, governments, banks, military, etc.?

Yes. Ghotit Real Writer & Reader 7 Software for Windows/Mac works offline and complies to the highest standards of privacy, safety and security.

Can Ghotit Real Writer & Reader be used as a standalone text editor?

Ghotit Frequently Asked Questions

Yes. Besides working with any text editing application like Google Docs, MS-Office, Libre Office, Pages, etc., Real Writer & Reader could be used as a standalone text editor.

Does Ghotit Real Writer & Reader 7 software require an Internet connection?

No, Ghotit Software, Real Writer & Reader 7 for Windows / Mac, works completely offline and does not require an Internet connection unless you need to use Google Docs Editor.

Unlike Ghotit Software, Ghotit Mobile Apps do require Internet for spelling and grammar; all other features are working offline. Ghotit Monthly Subscription Service software is using Internet connection only to validate the service license.

Which English dictionaries does Ghotit Real Writer & Reader support?

US, UK, Canadian, Australian, New Zealand and South African English.

Can the software complement a Speech-To-Text (Dictation Software) solution?

The software complements speech-to-text solutions. Ghotit Real Writer & Reader is used to correct confused words, grammar and punctuation marks of the recorded text. In addition, in situations where background noises or privacy considerations prohibit the use of speech-to-text solutions, Ghotit can be used as the user's sole writing assistant.

What are the system requirements for Ghotit software and apps?
