| Options | -AG | | | | | | | |
| Options | -AGM | | | | | | | |

* All the models listed above are standard non-stock products, except -AGM which is custom model. Lead time varies. No return for refund.

Only standard in-stock products may be returned within 15 days for exchange or credit used toward future purchases.

For 27" and smaller sizes, the touch screens are assembled with glass and Velcro or double-side tape.

For 32" and larger sizes, add -A for assembled (same price as frame segments), add -AG for assembled with glass,

add -AGM for assembled with glass & custom mount, add -MT for magnet tape, add -AMT for assembled with magnet tape (same price as -MT).

-MT option is only available for frame segments model (without glass). The prices listed above are for single layer of magnet tape for mounting OPTIR Touch onto a metal surface. If the surface is not metal, double layers of magnet tape will be required, therefore, the cost of this option will be doubled.

** Thickness include the glass for size of 27" and smaller. Thickness for 32" and larger does not include the glass thickness.

*** Some models may have limited support to Mac OS too. Not all the Linux editions are supported.
