

SECURISEAT

SECURISEAT

000014 944601

USE

- For the exclusive use of disabled persons : This universal device prevents people with disabilities to endanger during travelling by ensuring they remain securely fastened throughout the ride

FEATURE

- 1 SECURISEAT is composed of : 1 buckle cover + 3 unlock keys + 2 reducers + 1 assembly instructions
- Component dimensions :
 Buckle cover : Width 92 mm – Height 70 mm – Depth 65 mm
 Reducer : Length 67 mm – Width 10 mm (eyelet for hanging keychain)
 Key : Length 54 mm – Diameter 26 mm (eyelet for hanging keychain)
- Material : Injected techno-polymer with high mechanical properties
 Translucent blue colour which allows good visualization when locking

ASSEMBLY

- Quick and intuitive installation with or without reducer (depending on the belt's model)
- Unlocking of the device with delivered key or any other usual object (pen, nearby belt buckle...)
- Follow the assembly instructions included in the kit

ADVANTAGES

- Double function:
 1. Prevents a disabled person from being able to use a finger to push the seat belt release button
 2. Prevents a disabled person from sliding under the lap belt
- Universal device : exceptional vehicles compatibility > 98% (suitable for rear recessed seat belts)
 Device tested in 275 vehicles from 43 manufacturers.
- The device keeps its location and its original setting after use

AVAILABLE COLOUR

Translucent blue
