ONE SIMPLE CLICK FOR GREAT SERENITY TRAVELS

Patented product

SECURISEAT

Universal device

WHAT IS IT ?

- **SECURISEAT is a seat belt buckle cover** : it prevents a disabled person to push the seat belt release button during transport (avoids endangerment of the disabled person, other passengers and driver)
- It prevents the disabled person from sliding under the lap belt

EASY TO USE

- **Quick and intuitive installation**
- Unlocking of the device with supplied key or any other usual object (pen, nearby belt buckle ...).
- Follow-me solution : you can remove SECURISEAT easily to install it in another car or you can leave it adjusted on seat belt at anytime

UNIVERSAL DEVICE

- Can be fitted on recessed seat belts
- Exceptional vehicles compatibility > 98%
- Device tested in 275 vehicles from 43 manufacturers.
