High Resiliency Molded Foam Seat

Designed to provide a universal sit and tailored fit, the high resiliency molded foam seat offers a comfortable, supportive feel. From the moment you sit, the HRM seat pairs famously with the Dynamic Variable lumbar support to cradle you in luxury. Work long hours without fatigue.

X⁴-EXEC X4 is draped in your choice of supple top grain leather, premium leather or luxurious & incredibly soft Brisa. The seat, back, and optional headrest deliver delicious comfort from the moment you sit. X4 utilizes a tight mesh weave in the seat back behind the leather to deliver the support and breath-ability you need with the comfort and style you deserve. X4 makes a loud statement without saying a single word.

“

This is the most comfortable office chair I have ever sat in. I have a bad back so to have a chair that adjusts to fit my back is a great benefit. I love the head rest, it molds around my neck providing me such comfort and last of all I absolutely love the foot rest. I would have never thought that a foot rest could provide such comfort. This chair is a must for anyone who spends any length of time working behind a desk.
