## X-VISION

Every superhero needs a sidekick. That is what Xs-Vision is to our traditional flagship X-Chair number models. Smaller in size and stature, Xs-Vision packs a very powerful punch while filling the need for smaller end users without sacrificing any key features. Available with black or grey K-Sport material, the Xs-Vision is the only chair in the X-Chair lineup that features a white frame and base. With features like Dynamic Variable Lumbar™ (DVL), height adjustable arms, adjustable chair height and seat depth, Extensive Variable Recline and tilt lock, the vision of your future productivity has never been more clear.

“

I just love this chair, very comfortable, it glides so nice moving across the room. The foot rest is just added comfort when you sit at a desk all day. Thank you.

Emily, ★★★★★

”

### White Chair Frame

Who said office chairs have to come in all black? Xs-Vision breaks away from the standard and is only available with a distinct white frame.
