Ghotit is the best thing anybody did for us people who have Dyslexia. It gives me hope to write and be confident that the person who reads does understand what I wrote about... Being an advocate for equal rights and access to education for Dyslexic people, I very strongly recommend Ghotit. Well done guys! You Ghotit!

Amazing spellchecker! Our daughter's dysgraphia has been a challenge, but the spellchecker catches almost all of her 'creative' spellings...

Dr. Mary Rute Dyslexia Parent, Canada

I can finally find a way to perform my homework by myself, without having my parents review every written homework assignment. Ghotit has become my personal homework assistant.

As a PhD student, a large part of my works consists of correspondences, writing papers and scholarly articles... As a person who suffers from Dyslexia, this task was often difficult and time consuming... Ghotit incorporates a contextual and phonetic spell checker, dictionary, and text to speech, all which are essential tools for a person who is dyslexic and whose mother tongue is not English.

Guy Ludwig Dyslexic & ESL, Israel

English is not my native language, but it is the language I use the most during work. Until now my English spelling has been so poor, that it affected my overall work performance. But since purchasing Ghotit, both my writing and work performance has improved dramatically. Thanks Ghotit.

Mark Lippens ESL, Belgium

I have tried other all other spell checkers. This is the only spell checker that thinks just like a dyslexic person. Having the text read out loud is a real winning feature
